02 PRODUCT INFORMATION

ENGINEERED FOR PRESENTATION.

FRAME 101 is designed to frame the slab without competing with the card. The structure combines a rigid metal perimeter, clear display faces, magnetic closure, and cushioned contact areas.

SILVER / F101-ESS-SIL

01 Rigid aluminum perimeter

A structured outer frame intended to give the graded-card slab a clean, architectural edge.

02 Magnetic closure

Multiple magnets align the two frame halves for straightforward assembly and removal.

03 UV-reducing clear faces

Clear display faces are supplier-specified to reduce UV exposure while preserving visibility.

04 Cushioned contact areas

Interior contact points are designed to reduce movement and soften contact during everyday handling.

PERFORMANCE LIMITS

Supplier specifications indicate UV-reducing performance; independent test documentation is not currently published. No display enclosure can prevent all fading or impact damage. FRAME 101 is designed for indoor presentation and everyday handling, and is not certified as drop-proof, waterproof, fireproof, or archival storage. Compatibility should be confirmed for the intended graded-card slab format before ordering.

A CLEAR WHOLESALE PATH.

FRAME 101 works with approved card shops, show dealers, and ecommerce sellers across the United States. Product, availability, shipping, and order terms are confirmed in writing before commitment.

HOW IT WORKS

1

Apply

Tell us about your business, selling channel, and assortment goals.

2

Build the assortment

Submit one mixed-finish request or identify the finishes you are considering.

3

Confirm terms

Availability, shipping, and order terms are documented before an order is finalized.

4

Approve the program

Custom work proceeds only after feasibility, direction, and applicable samples or specifications are approved.

CUSTOM PROGRAM

Built for programs, not one-offs.

A GOOD FIT

- Retail launches, show programs, collaborations, or distribution.
- A defined color direction, logo application, or both.
- Estimated volume, timing, and reference artwork or brand files.

NOT IN THE CURRENT PROGRAM

- Single-piece consumer personalization.
- Unlicensed third-party character artwork.
- Custom packaging or production before approval.

ORDER CONFIDENCE

U.S. PARTNER PROGRAM

Nationwide wholesale access for qualified shops, dealers, and ecommerce sellers.

FULFILLMENT

Confirmed available stock can be held and dispatched from the United States; replenishment is supported through a China production partner.

CLAIMS

Inspect promptly on receipt. Visible damage or manufacturing defects should be reported with photos; eligibility is reviewed against the confirmed order terms.

REQUEST TRADE ACCESS

FRAME 101

Submit a wholesale application on the FRAME 101 website. Mixed finishes can be requested in one application.
